

# My bucket strategy worksheet

Type into the fields and save a copy, or print and complete by hand.

Use a PDF reader that supports forms. This worksheet does not calculate automatically.

Name / initials

Review date

## 1. Find the monthly amount your savings need to cover

Spending needs (\$)

Net recurring income (\$)

Savings gap (\$)

Gap = spending minus pension, Social Security and other recurring income (minimum \$0).

Use consistent after-tax amounts. Allow separately for withdrawal taxes and emergency reserves.

## 2. Give your savings a job

### 1 SPEND SOON

Cash, savings, short CDs

My time frame / years

Target amount (\$)

Holdings / purpose (no account IDs)

### 2 NEXT STAGE

CDs or high-quality bonds

My time frame / years

Target amount (\$)

Holdings / purpose (no account IDs)

### 3 GROW FOR LATER

Diversified stock funds

My time frame / years

Target amount (\$)

Holdings / purpose (no account IDs)

Examples only, not recommended allocations. Buckets can span accounts; do not count money twice.

## 3. Write your replenishment and review plan

How will I refill spending reserves? When will I review? What changes during a market decline?

Questions for my consultation

Educational planning aid. No guarantee of returns or income; investments can lose value.
